BankCEO
BankCEO is SWGSB’s own unique bank simulation technology designed specifically to provide students real-world experience. With interactive screens, test runs, instant results, and displays that compare teams using various criteria and statistics, BankCEO is a one-of-a-kind experience that distills years of bank management down to a series of well-focused decisions and applications. This online, web-based adaptation can only be found at SWGSB and revolutionizes the bank simulation, further allowing you to interact and learn from your peers, in or out of the classroom!

The Living Case Study
The Living Case Study brings to life what other schools teach just on paper. You have a rare opportunity to analyze and study a real-world bank, propose changes, and interact with its top management. Each year SWGSB develops a new Living Case Study examining another bank and its most creative ideas. Year after year, your peers rate this as one of the most insightful aspects of the program, bar none — and it’s made available to you by SWGSB, exclusively.
